SUMMARY

Database Engineer and DBA with 9 years architecting resilient relational and NoSQL databases. Expert in query optimization, replication topologies, and high availability.

SKILLS

Databases: PostgreSQL, MySQL, Redis, MongoDB, Cassandra, SQL, Database Tuning, ETL, Python

EXPERIENCE

Principal Database Engineer | DataLink Corp | Jan 2019 - Present

Managed 40TB PostgreSQL production cluster. Tuned indexing strategies, query execution plans, and vacuum parameters, yielding an 80% decrease in slow queries.

Database Administrator | Enterprise Systems | Mar 2015 - Dec 2018

Designed disaster recovery protocols and automated point-in-time recovery testing across MySQL replication clusters.

EDUCATION

B.S. in Information Systems | Purdue University | Graduated 2015
