Morgan Jones

morgan.jones@deepmindset.ai | 555-010-0005

SUMMARY

ML Engineer with 6 years specializing in Natural Language Processing, Transformer architectures, and scalable model inference deployment. Published researcher in deep learning.

TECHNICAL EXPERTISE

Machine Learning: PyTorch, TensorFlow, Scikit-Learn, Hugging Face, Transformers, NLP, Computer Vision, MLOps

Engineering: Python, FastAPI, Docker, Ray, Triton Inference Server, AWS SageMaker

EXPERIENCE

Senior ML Engineer | DeepMindset AI | Sep 2020 - Present

Built and deployed real-time semantic document search engine using sentence embeddings and FAISS vector database. Handled 15M monthly queries with sub-30ms p95 latency.

Machine Learning Specialist | DataSphere | Jun 2018 - Aug 2020

Trained gradient boosting and deep learning models for churn prediction, increasing retention by 18% and generating $800K in preserved recurring revenue.

EDUCATION

Ph.D. in Computer Science | Carnegie Mellon University | Graduated 2018
